ORGANISATION INTERNATIONALE DE NORMALISATION
ISO/IEC JTC1/SC29/WG11
CODING OF MOVING PICTURES AND AUDIO**

**ISO/IEC JTC1/SC29/WG11 m39613
Mpeg 117, January 2017, Geneva, Switzerland**

**Source: AHG Chairs
Title Media Orchestration AHG Report**

The mandates of the AHG were as follows:

1. To review and improve the MP20 Standardisation Roadmap
2. To prepare a roadmap workshop to be held in Geneva, co-located with MPEG 117
3. To explore options for an MP20 session to be held at the Mobile World Congress in Barcelona, in the week of 27 Feb 17.

The following progress was made with respect to these mandates:

1. A new draft is available that incorporates results of the Chengdu workshop
2. The bulk of the work was dedicated to organising the Workshop during MPEG 117. See m40061 for the program
3. In spite of Jaime Delgado's significant efforts (thanks!), a workshop at Mobile World Congress was not possible
 - a. The AHG chairmanship did, however, secure an option for a US-based workshop

The AHG recommends:

1. To organize the MP20 Workshop coming Wednesday
2. To update the MP20 Roadmap using input from the Chengdu and Geneva workshops
3. To organize one more MP20 workshop in Las Vegas, as part of NAB '17, on 22 or 23 April
